Grant University

Introductory Statement

The record of another year is closed. Thorough work has been done by the students in the various departments of our institution.

Our ideal has not yet been reached. But we have abundant reasons to rejoice and we do rejoice in the evident tokens of the long looked for "brighter day."

For more than a third of a century our halls have been open to the youth of our country. Glancing at the company that has been educated here we may form some estimate of the patient influence that has been exerted by our school.

The records show that three hundred have practiced law, five hundred medicine, eight hundred have preached the gospel, and fifteen hundred have taught school. But beyond these professions, the home and social life, the church and political life in many communities has been transformed into something better through the influence of those who received their training here.

It is needless perhaps to say that the authorities of Grant University are seeking to build on the foundations already laid. In a word, our purpose is to establish at Athens and Chattanooga, Tennessee, a strong educational plant that shall meet the necessities of this rapidly developing section, known as the Central South. To this end we invite the co-operation of all friends of Christian learning and devoutly pray the blessing of God upon our future efforts.

Historical and General

Grant University is the successor of the East Tennessee Wesleyan University which was established in 1867. It is under the auspices of the Methodist Episcopal Church. In point of fact however, while it is denominational it is non-sectarian. Its management is committed to a Board of Trustees consisting of twenty-one members. It comprises the following departments:

I. THE SCHOOL OF LIBERAL ARTS offers three courses of study, leading respectively to degrees in Arts, Philosophy and Science, and is open to both sexes. Course four years.

II. THE SCHOOL OF THEOLOGY provides training for candidates for the ministry and leads to the degree of S. T. B. Course three years.

III. THE SCHOOL OF MEDICINE requires in every scholastic exaction the conditions of the Southern Medical Association. Leads to the degree of M. D. Course four years.

IV. THE SCHOOL OF LAW presents a thorough course of study designed to give training for the practice of law. Leads to the degree of LL. B. Course two years.

V. THE PREPARATORY DEPARTMENT is designed to fit young men and young women for college, either for the Classical, Philosophical or Scientific course. Students are admitted to advanced standing upon examination.

VI. THE BUSINESS DEPARTMENT is a complete and thoroughly equipped commercial school.

VII. DEPARTMENTS OF MUSIC, ART AND ELOCUTION are also maintained, and are under the care of accomplished directors. Full courses are offered and diplomas granted.

The schools are one corporation, have one President, who has general charge, each of the departments having a Dean in more immediate charge.

Location

Athens, the seat of the Liberal Arts and Preparatory Departments of the University, and of the associated departments of Music, Art and Elocution, is situated on the main line of the Southern Railway, and midway between Knoxville and Chattanooga. It is a thriving village of 2,000 inhabitants. Its citizens are cultured and refined, and by their generous hospitality add much to the comfort and pleasure of student-life in their midst. It has an altitude of nearly one thousand feet above sea level, and enjoys a climate unsurpassed by any on the continent. To our patrons in this immediate section, these are unnecessary statements; but they are made for the information of students in the North who are seeking a milder climate, where they can prosecute their college course.

Chattanooga, the seat of the professional schools, Theology, Medicine, Law, and of the Business College, is one of the most thriving cities of the South. It possesses the same climatic advantages as those enumerated above. Besides, it has many attractions of a historical character. This city is a favorable location for such schools. According to the report of the Surgeon General of the United States, Chattanooga is one of the healthiest cities in the nation. Chattanooga is called "The Gateway of the South," as nearly all the great lines of railroads

connecting the North with the far South pass through it. The great battlefields of Chickamauga, Mission Ridge and Lookout Mountain attract visitors from all parts of the nation, so that the students are brought into contact with people from every section of the country.

Grounds and Buildings

The campus at Athens embraces about twenty acres and upon it are situated the Old College Building, Chapel, Bennett Hall, Elizabeth Ritter Home, C. H. Banfield Memorial Hall, Hatfield Hall, and the Blakeslee Home for boys. There are also several cottages for self board.

THE C. H. BANFIELD MEMORIAL HALL is the gift of Mr. Wm. Banfield, Beaver, Penna. It is an elegant building of brick and stone. In it are to be college offices, laboratories, Foster Library, reading room society halls for the young ladies, and recitation rooms. It is practically completed and will be ready for dedication with the opening of the next academic year. This building brings increased facilities for more thorough work along many lines, and in architectural beauty is a fitting monument to the noble man in whose name it was reared.

THE BLAKESLEE HOME FOR BOYS is another valuable acquisition. This is the gift of Mr. and Mrs. C. S. Blakeslee of Macksburg, Ohio. It may be described as the brick residence situated on the corner of Railroad and North College streets, and formerly known as the Nixon property. It will be thoroughly equipped, and under the direction of an experienced superintendent, will be conducted as a boarding hall for young men. This lot 104 x 297 feet will extend the college grounds to the front street and thus afford an attractive approach to the main entrance on the north. The cost of the board in this building including furnished room, lights and fuel will be \$3.00 per week. Two young men occupy one room.

BENNETT HALL is for young ladies. Everything is furnished except bed linen and towels, and the cost is \$3.00 per week when two occupy the same apartment. Students rooming alone pay extra. Ladies boarding here will come under the supervision of the Matron and Preceptress. It is our constant purpose to make this a safe and attractive home for girls.

ELIZABETH RITTER INDUSTRIAL HOME is a beautiful building, perfect in all its appointments and is capable of accommodating more than fifty girls. [See full description on another page.]

HATFIELD HALL is for young men. It is provided with stoves and heavy furniture. A boarding club is conducted here on the co-operative plan at a cost of about \$1.25 per week for each individual. Staple

articles of provisions may be turned in at market value, a cook employed and the cost of living reduced to a nominal sum.

Those desiring to board themselves may find suitable accommodations in the cottages nearby. These are supplied with heating stoves and heavy furniture, and are rented at 50 cents per month for each occupant.

Ladies are expected to board at Elizabeth Ritter Home or Bennett Hall.

Young men can secure private board, including furnished room and fuel at a cost ranging from \$2.00 to \$3.00 per week.

THE UNIVERSITY BUILDING at Chattanooga, the home of the professional schools of Theology and Law, is a handsome brick and stone edifice of modern design and pleasing architectural finish. It is situated almost in the center of Chattanooga, every way convenient for patrons, and within easy distance of the two depots, where ten railroads discharge all of their passenger travel. The elevation is one of the highest in the city, overlooking the entire city, and the building by its prominence is one of the first to greet the eye from every direction. The campus embraces almost the whole square between McCallie, Baldwin, Oak and Douglas Streets, and just north, across Oak Street, an entire square, extending from Oak to Vine Streets. Electric cars pass through this campus every few minutes. Rapid transit is readily afforded to every section of the city and outlying suburbs, and students can board wherever they please in the bounds of this territory. Every room is splendidly lighted both by day and night. Heating apparatus is sufficient, ventilation perfect, water everywhere abundant, and numerous stairways, corridors and balconies insure ready ingress and exit.

THE MEDICAL COLLEGE BUILDING is located on the northeast corner of the campus at Chattanooga. This elegant brick and stone structure will be ready for occupancy with the opening of the School of Medicine this fall. The structure is three stories in height not including basement, is equipped for both electricity and gas and possesses all modern sanitary appliances. The structure is practically fire-proof. Steam-heat is used throughout the building.

A boarding club is conducted in the University building where wholesome board may be procured at the rate of \$2.25 per week. Dormitory facilities are also provided in the University building for a limited number of young men.

The Aim of the College

It is to give that liberal education which is the true preparation for the study of a learned profession, or a life devoted to letters or public affairs. Accordingly the University provides instruction in those branches of literature, science and philosophy termed the Liberal Arts.

Admission

Candidates for admission to the Freshman Class must present certificates from reputable schools, or take a preliminary examination on entrance. In every instance testimonials of good moral character must be furnished. For the scholastic requirements, see courses of study as printed in the collegiate preparatory department.

Courses of Study

There are three courses of study provided in the collegiate department—the Classical, the Philosophical and the Scientific. The Classical course leads to the degree of Bachelor of Arts. It covers four years, and is designed to afford opportunity for acquiring a good general knowledge of a wide range of subjects, embracing ancient and modern languages, mathematics, history, natural science, literature and philosophy. The Philosophical and Scientific courses are also arranged for four years, and lead to the degrees of Bachelor of Philosophy and Bachelor of Science, respectively. The aim, in all these courses, is general rather than special culture, and a symmetrical and carefully graduated development, rather than the exhaustive investigation of a few subjects to the neglect of others equally important.

Recitations and Examinations

Each student must have not less than fifteen nor more than twenty recitations per week, except by special permission of the Faculty. A record is kept by each professor, showing the grade of each student's daily work, and this, together with the result of a thorough written examination at the end of the term, must show an average of at least 70 in the scale of 100 before the student can be passed in any study; but any student making an average of 90 or more may be excused from the written examination at the close of the term by the teacher in charge. A student desiring examination in any subject except at the hour

of class examination is required to make application to the Faculty. If request is granted, a fee of one dollar per recitation hour will be charged.

It is very important that students enter classes at the beginning of the term, and keep in mind that constant, prompt attendance is necessary for the attainment of high grades. Students must not leave classes, or take up new studies, except upon written approval of the proper officers.

Candidates for degrees will not be permitted to pursue studies in advance of their class, nor will anyone be allowed to take studies for which he is not duly prepared.

Students in the University will not be permitted to take lessons from anyone outside the Faculty, except by express permission.

Students over nineteen years of age not candidates for degrees may pursue studies in any department for which they are prepared. Certificates showing the amount and grade of work done by them will be given upon application to the Dean of the Department. Candidates for degrees will, in certain cases, be permitted to substitute work or select studies from other departments.

All substitutions and selections must be of such character as shall not lower the grade of scholarship and culture. The approval of the Faculty, however, must be had in every such instance.

Essays and Orations

In addition to the regular class work, each student in the Fourth Preparatory year will be required to submit two original essays upon subjects chosen by the Faculty; one at the close of the fall, and one at the close of the winter term. Also one oration of 1,000 to 1,200 words will be required at the close of the spring term.

Prizes

The Patten Prize in Oratory is the gift of Mr. John A. Patten of the Board of Trustees. A cash prize of fifteen dollars is awarded to that representative of one of the literary societies who may excel in an oratorical contest that is held each year on Washington's Birthday in the College Chapel, and the sum of ten dollars is awarded to the contestant securing the second honor. The public orators are chosen by a committee from the Faculty or Alumni appointed by each society as adjudicators at a preliminary contest held in each society hall at least a week before the public contest. Any member of the society is eligible to this preliminary trial, but the successful contestants for this prize may not

contend for the prize in debate within the same year. The winners of this prize during the past year were :

First Honor—Margaret Wright, Tennessee.

Second Honor—E. E. Crabtree, Virginia.

The Annis Prize in Debate is the gift of Mr. J. E. Annis of the Board of Trustees. Two prizes are offered, the first honor being the sum of fifteen dollars, and the second honor the sum of ten dollars. The public debate is held in the Chapel on Grant's Birthday. The participants are representatives of the literary societies, and are chosen after preliminary contests that are open to any member of the society. The winners of the Annis Prize during the last school year were :

First Honor—Margaret Crowder, Mississippi.

Second Honor—Margaret Marston, Tennessee.

For each of the preceding years since his graduation Prof. Elmer F. Goddard, class of '99 has given a cash prize of five dollars to that student in the third or fourth preparatory year who has received the highest average grade for the studies of the year ; also a cash prize of ten dollars to that member of the Freshman or Sophomore class who has received the highest average grade for the year. For the past session these prizes were awarded as follows :

J. H. Hampton, North Carolina, Third Preparatory Class.

Mabel R. Hooper, Tennessee, Freshman Class.

Dr. and Mrs. L. E. Prentiss offer for the year 1902-1903 cash prizes of five and ten dollars to the students of the third and fourth preparatory years, respectively, making the highest grades. Similar prizes of five and ten dollars are offered to the two students of the Freshman and Sophomore classes, respectively, making the highest grades ; the last to be awarded by Miss Corinne Barnett Ramsay and James McClure Barnett Ramsay, of Beaver, Penna.

The Foster Library

Mr. John W. F. Foster, member of our Board of Trustees, has given \$1000 toward the equipment of a library and reading room. For this purpose ample space has been set apart in the new building. As opportunity offers additions will be made to the valuable collection of books already in hand, some of the leading papers and magazines will be kept on file and it is expected that the appointments of this library will be so attractive as to stimulate a taste for wholesome reading.

Lectures

These constitute a very interesting and valuable feature of college

life. Eminent speakers are engaged to address our students on social and literary topics during the year. The professors are frequently heard in "Thursday chapel talks," and in some of the departments the lecture constitutes a part of the regular class work.

Literary Societies

At Athens there are four literary societies organized under the laws of the University—the Athenian and Philomathean, for gentlemen; the Sapphonian and Knightonian, for ladies. Each has a separate hall for meeting, a large, active membership, and an appropriate library. Experience has demonstrated the value of these organizations in developing the literary taste, as well as ease and gracefulness of expression. Members of the literary societies are eligible to the Patten Prize in Oratory and to the Annis Prize in Debate.

Laboratory

The Physical Laboratory is provided with apparatus for the illustration of the laws of mechanics, heat, sound, light and electricity; the latter important subject being especially well represented by electric lamps of various styles and sizes, electric motor, magnetic telephone, telegraphic instruments, with lines, microphones, induction coils and instruments of measurement.

For aid in the study of Natural History, an excellent collection of plants and animals has been provided.

In addition to a large number of minerals and fossils already arranged in the cabinet, a collection of minerals, ores and rocks has been received, a gift of the Smithsonian Institute, Washington, D. C. This is a valuable collection, containing one hundred and thirty representative specimens, and affords an excellent opportunity for practical study in geology and mineralogy.

A fine microscope, surveyor's instruments, including compass and transit are among the important pieces of apparatus.

Religious Culture

If other things are important, this is more so. In all our intercourse with students, both in the class room and out, it is our purpose to emphasize this fact. This institution is not sectarian, but it is decidedly Christian in practice and principle. Students are required to attend chapel each school day and church on Sabbath morning. We have an Epworth League, Y. M. C. A. and Y. W. C. A. With all these helpful influences we expect students who have spent some time with us to depart not only wiser but also better than they came.

Government

[All regulations of the University relating to discipline will be in force during the intervals between the terms.]

The regulations of the University are few and simple, based upon the usages of Christian homes and refined society. They appeal to the student's honor and self-respect, insist upon regular habits, inculcate respect for law and order, and inspire a love for the gentler and unselfish qualities that characterize the true gentleman and refined lady. A faithful observance of the hours set apart for study, and regular and prompt attendance upon all classes, exercises or other duties involved by the student's connection with the University, will be firmly insisted upon.

Students will be held responsible for damage done by them to any property of the University.

The association of ladies and gentlemen must be strictly in accordance with the regulations of the Faculty.

No meetings of students in the University buildings for the transaction of business, and no exercises whatever to which the public are admitted, whether by society or individual students, shall be held except with the consent of the Faculty previously obtained.

The regulations of the University are printed in detail, together with such information as may be of interest and benefit to new students, and may be obtained of any officer of the Faculty. It is desired that all students examine them carefully before matriculation, as all who become members of the school must agree to conform to them, and anyone who persists in their violation, or who, in the judgment of the Faculty, exerts a bad influence in the school, will be dismissed without hesitation.

Expenses

The entire history of the University has been characterized by the efforts of its Trustees and Faculty to reduce the cost of a liberal education to such low figures that no student need be deterred on account of his financial condition. It is a source of great satisfaction that the efforts made in this direction have been successful, and that students in the humblest circumstances are here able to obtain a liberal education, and to prepare themselves for any of the practical and learned professions they may desire to pursue.

From the following table of expenses the actual outlay in any department at Athens may be readily computed :

Tuition in College of Liberal Arts, per term.....	\$10 00
Tuition in Preparatory Department.....	6 00
Ministerial Students, half the above rates.....	
Tuition in Music, per term, two lessons per week.....	10 00
Painting and Drawing, per term, twenty lessons.....	10 00

(Expenses)

Bookkeeping, in class, per term-----	\$ 5 00
Elocution in class, per term-----	5 00
Elocution, private instruction, per lesson-----	75
Stenography and Typewriting, in class, per term-----	3 00
Stenography and Typewriting, private instruction, per lesson-----	75
Use of Typewriter, per month, (one practice period per day)	1 00
Penmanship, per term-----	3 00
Incidental fee, paid by all, per term-----	3 00
Students in Analytical Chemistry pay cost of material used, average per term-----	2 00
Use of Piano or Organ, per month-----	1 00
Room in Hatfield Hall, (gentlemen), per term-----	1 50
Room for self-board, at Athens, with heavy furniture, per term, (with an additional charge of \$1.00 per term for use of cooking stove and utensils)-----	1 50
Students board themselves at a weekly expense of 75c. to	1 00
Board and room in Bennett Hall, per week-----	3 00

All charges for Tuition, Incidentals and Rents must be paid in advance, and no professor will receive a student into his class except upon the presentation of a ticket showing that a settlement has been made with the Treasurer of the Faculty. Any student who is permitted to take a college study will pay college tuition. (By order of the Board of Trustees, and will be rigidly enforced.)

Tuition and Incidentals for less than one-half term: In the Preparatory Department, one dollar the week; in the Collegiate Department, one dollar and fifty cents the week. No rebate will be given for absence during the last three weeks of any term.

Before permanent classification, each student entering the school for the first time must take preliminary examinations. Especial emphasis is placed on the thoroughness of the preparation in common English, and any candidate for matriculation who cannot read and spell well is required to enter the classes where these subjects are taught. On the day of registration each teacher will be in his or her class room to render assistance to any pupil concerning the work of the term or year. After matriculation each student is regarded as a member of the school until excused by the Dean of the Faculty.

Alumni Association

At the last annual business meeting of the Alumni Association the following officers were chosen for the ensuing year: Hon. W. F. McCarron, Class of '82, President; Mrs. J. W. Bayless, Class of '81, Vice-president; Hon. W. A. Long, Class of '82, Secretary; Mrs. Walter Franklin, Class of '95, Treasurer. These officers together with Professors Bolton and Wright are constituted an executive committee. It will be their purpose to prepare an interesting program for the next annual reunion, Tuesday evening, May 19, 1903.

Schedule of Recitations

For the First Term

HOURS.

8:15 A. M.	Second Year Algebra, Anabasis, Horace, Elements of Astronomy.
9:00 A. M.	Plane Geometry, Arithmetic A, Euripides, Ethics, Grammar C, Beginning Latin, Sophomore German.
9:45 A. M.	Analytic Geometry, Geography, First Greek, Third Year German, Advanced English, De Senectute.
10:30 A. M.	Civil Government, General History, Grammar B, Junior Physics.
11:15 A. M.	Physical Geography, Seneca, Psychology, Junior German.
1:30 P. M.	<i>CHAPEL SERVICE.</i>
1:45 P. M.	Arithmetic B, History of Civilization, English Language, Cicero's Orations, Science of Rhetoric.
2:30 P. M.	College Algebra, United States History, Mythology and Greek Composition, Sociology, Fourth Year German, Caesar and Latin Prose, Chemistry.
3:15 P. M.	Arithmetic C, Herodotus, Art Criticism, French, Grammar A.

NOTE.—All students are required to take English Classics, or special work in English once a week during the year in addition to the other requirements.

For the Second Term

HOURS.

8:15 A. M.	Second Year Algebra, Anabasis, Fourth Year German A, Horace.
9:00 A. M.	Plane Trigonometry, Arithmetic A, First Greek, Old Testament History, Third Year German, Grammar C, Astronomy.
9:45 A. M.	Analytic Geometry, Geography, Livy, American Literature, Advanced English.
10:30 A. M.	General History, English History, Grammar B, Physics.
11:15 A. M.	College Algebra, Psychology, English Literature, Beginning Latin.
1:30 P. M.	<i>CHAPEL SERVICE.</i>
1:45 P. M.	Arithmetic B, Demosthenes, International Law, Sophomore German, English Language, Virgil.
2:30 P. M.	Plane Geometry, United States History, Memorabilia, Theory of Morals, French, Caesar and Latin Prose, Chemistry.
3:15 P. M.	Arithmetic C, Political Economy, Physiology.

For the Third Term

HOURS.

8:15 A. M.	Second Year Algebra, Homer, Sophomore German, Grammar A, Cicero on the Gods, Geology.
9:00 A. M.	Surveying, Arithmetic A, Anabasis, History of Philosophy, Third Year German, Grammar C.
9:45 A. M.	Calculus, Geography, Tacitus, New Testament History, Advanced English.
10:30 A. M.	General History, Fourth Year German, Grammar B, Physics.
11:15 A. M.	Evidences of Christianity, English Literature, Beginning Latin, Botany.
1:30 P. M.	<i>CHAPEL SERVICE.</i>
1:45 P. M.	Arithmetic B, New Testament Greek, English Language, Virgil, Analytic Chemistry.
2:30 P. M.	Solid Geometry, History of Tennessee, Plato, Zoology, French, Caesar and Latin Prose.
3:15 P. M.	Arithmetic C, Logic, Elements of Physics.

Departments of Instruction

Latin

Preparatory

One year is devoted to First Latin, Collar and Daniel's text book is used. The Roman method of pronunciation is taught. Especial care is taken to lay the foundation very thoroughly.

Following this, one year is given to the study of Cæsar. The first four books of the Gallic war are translated with constant reference to the principles of syntax based on Allen and Greenough's grammar. Prose composition is carried through the year as a collateral study.

During the next preparatory year the same careful study of syntax is continued in connection with the reading of Cicero's Orations and Virgil's Æneid. Emphasis is also laid on the study of Latin Prosody. Exercises in sight reading are freely given.

Collegiate

During the first term of the Freshman year Cicero's *De Senectute et De Amicitia* is read. The student at this stage is expected to have attained good working knowledge of the language. Livy is read during the second term, and the Germania and Agricola of Tacitus during the third term of the Freshman year. In connection with this work, a course of lectures is delivered on Roman literature.

During the first term of the Sophomore year we read selections from Horace including his Odes, Epodes, Satires, and Art of Poetry.

This is followed in the Spring term by Cicero's *De Natura Deorum*.

During the first term of the Junior year we read one of Seneca's essays, *De Providentia*. This, together with a thorough review of grammar, completes the work in Latin.

Greek

Preparatory

1. White's First Greek, two terms.
2. Xenophon's Anabasis, the first four books, two and one-half terms.
3. Homer's Iliad, the first three books, one term and one-half.

4. Mythology and Greek Composition in connection with the Anabasis.

Collegiate

1. Herodotus. Selections from books VI and VII.
2. Xenophon's Memorabilia.
3. Plato's Apology.
4. Euripides—Medea.
5. Demosthenes—Oration on the Crown.
6. New Testament Greek—Acts of the Apostles. In connection with the Memorabilia a course of lectures on Greek Literature is given. Supplementary lectures are also given on the Life of Paul in connection with New Testament Greek.

Mathematics

The aim of instruction offered in this department is to develop certain powers and habits needed by every true student and good citizen. Great and constant here is the opportunity to cultivate observation, imagination, reflection, reasoning, accuracy of thought and clearness of expression. The ends of teaching in this branch are knowledge and power—the knowledge of facts in their relation to each other, to the business world and to the material universe, the power of sustained, exact and independent reasoning, the everyday logic of Mathematics in applying theory to the solution of practical problems.

The required work in Mathematics is given in the following statements, which may be changed whenever the teacher thinks it best:

Collegiate Preparatory

ARITHMETIC, mental and written, is taught throughout the subject, and special emphasis is given to the metric system, longitude and time, mensuration of surfaces and solids, capacity of vessels, oral analysis and solution of problems. The student must show a reasonable rapidity and accuracy in work involving percentage, proportion, involution, evolution. Practice also will be given in the investigation and analysis of sight problems.

ALGEBRA. The fundamentals are taught by aid of one of the best modern texts on the subject. Students are drilled on the interpretation of Algebraic expressions and the reading at sight of indicated results. Special attention is directed to factoring, highest common factor, lowest common multiple, fractions, theory of exponents, radicals, quadratic equations, proportion, progressions, logarithms, binomial theorem, variation, undetermined coefficients. Algebra is a kind of universal arithme-

Grant University,

tic whose processes often depend upon the equation—the tool of the mathematician—upon which much study will be bestowed.

PLANE AND SOLID GEOMETRY. Two terms of the fourth preparatory year are given to Plane Geometry and one term to Solid Geometry. Time is applied not only in learning and reproducing demonstrations given by others, but special importance is attached to the development of independent thought in the student and his ability to produce original demonstrations and solutions of sight exercises.

COLLEGIATE—ALGEBRA. In the Freshman year the fundamentals are reviewed and advanced work taken up in quadratics, variation, proportion, arithmetic, geometric and harmonic series, theory of limits, inequalities, convergency and divergency of series, permutations, combinations, indeterminate forms, binomial formula, exponential equations, undetermined coefficients, partial fractions, theory of equations.

TRIGONOMETRY. In the Sophomore year Plane and Analytic Trigonometry are taught, attention being given to measurement of angles, trigonometric functions of any angle and of several angles, relations between functions of one angle and of two or more angles, solution of trigonometric equations, the theory and solution of triangles, the determination of heights and distances of objects which cannot be actually measured.

SURVEYING is also taught in the Sophomore year, including adjustment and use of instruments, survey of public lands, variation of the needle, field operations, computation of areas, laying out and dividing land, and the elements of leveling and grades.

ANALYTIC GEOMETRY. In the Junior year, two terms of daily recitation are given to Plane Analytic Geometry, considering algebraic and trigonometric conceptions and formulas, the co-ordinate systems, the locus of an equation, the equation of a locus, transformation of co-ordinates, the straight line, the circle, the parabola, the ellipse, the hyperbola, the production of formulas and solution of examples relating to the conic sections, a few higher plane curves.

CALCULUS, both differential and integral, as presented in Taylor's text are taught during two terms.

NOTE.—No substitution will be permitted for Mathematics in the foregoing statements to any candidate for a bachelor's degree except for Surveying and Calculus.

Philosophy

HISTORY OF PHILOSOPHY is taught five hours a week during the third term of the Senior year. The attention of the student is directed mainly to the leading principles of ancient and modern Philosophy, only brief reference being made to that of mediaeval times.

Schwegler's text, translated by Seelye, is used.

PSYCHOLOGY. Five hours per week during the first term of the Senior year is devoted to the study of the nature and development of the intellectual faculties, and five hours per week during the second term to the discussions of the sensibilities and the will. "Outline of Psychology," by James Sully, is used as text.

EVIDENCES of the Divine origin of Christianity is studied during the first eight weeks of the third term of the Senior year. This subject is taught by text book and lectures, "Fisher's Manual of Christian Evidences" is used as an outline.

ETHICS AND THE THEORY OF MORALS are pursued together during the first and second terms of the Senior year. "Principles of Ethics" by Borden P. Bowne, is used as a text.

LOGIC. Five hours per week during the third term of the Junior year is devoted to the study of this subject. "An Introductory Logic," by James Edwin Creighton is used.

AESTHETICS. In this department the aim is to aid the student in securing some idea of the nature of beauty that he may be able to recognize and appreciate the truly beautiful both in nature and in art. The chief characteristics, their relation and interdependence, of Architecture, Sculpture, Painting and Music are noted and discussed. "The Philosophy of the Beautiful," Part II, by Knight is the guide.

Political and Social Science

ECONOMICS. During the second term of the Junior year five hours per week are devoted to this study. The student is urged to consult various recent works on these important practical questions and so to study them as to free himself from a narrow or one side view of the subject.

INTERNATIONAL LAW. This subject is pursued by the Senior class during the winter term. Woolsey's text, latest edition, is required to be thoroughly mastered.

SOCIOLOGY. Five hours per week during the first term of the Senior year is given to the discussion of this subject. "Introduction to Sociology" by Arthur Fairbanks is used as a guide, but various other texts are freely used, the object being to acquaint the student as far as possible with this many sided and as yet vaguely bounded field of investigation.

Physics — Chemistry

PHYSICS. First term, five hours. Principles of Physics; motion, Molar dynamics, force, fluids, sound. Written exercises throughout the

year. Second term, five hours. Molecular dynamics; heat, steam-engine. Ether dynamics; light, color, optical instruments. Third term, five hours. Ether dynamics; electrification, batteries, electrical quantities, the dynamics, modern applications of electricity.

ASTRONOMY. Second term, five hours. Descriptive Astronomy. Doctrine of the sphere, determination of latitude and longitude, determination of periods and distances, eclipses, celestial mechanics. Written exercises, individual observations.

GEOLOGY. Third term, five hours. Structural Geology; elements and minerals of the earth's crust, origin and structure of the rocks. Dynamic Geology; weathering and erosion, glaciers, volcanoes, ore deposits. Stratigraphic Geology; uses of fossils, geological time scale; early geography of the United States. Written exercises. Field work.

BOTANY. Second term, two hours. Environment of plants. Histology; the cell, tissues, structure, with microscopic examinations.

Third term, three hours. The plant; roots, stems, leaves, comparative study of seeds and fruits, germination, cryptogams. Plant analysis with preparation of specimens for the Herbarium.

ZOOLOGY. Second term, three hours. General structure and development of animals. Animal relations. Systematic study of invertebrates.

Third term, two hours. Study of vertebrates, comparative anatomy, reproduction. Preparation of specimens.

CHEMISTRY. First term, five hours. Descriptive Chemistry; laws, nonmetals, written exercises, experiments.

Second term, five hours. Descriptive Chemistry continued; metals, chemical compounds, original Chemistry; written exercises, experiments.

Third term, five hours. Quantitative Analysis; lectures and individual laboratory work.

History

The importance of a thorough knowledge of history is receiving more and more emphasis in all institutions of learning.

In the third preparatory year Myer's General History is used as a text-book and it is expected that all who take this study will have finished United States History. General History continues through the year, and it is expected that the text-book will be supplemented by outside reading. Papers on various historical characters and events will also be required. In the fourth preparatory year two terms are given to Old Testament and New Testament History.

In the Freshman year European History is taken up, both Mediaeval and Modern.

While a text-book will be used as a basis, the recitations will be largely in the form of lectures, discussions, and the reading of papers on historical topics previously assigned to the student by the instructors.

In the reading of the classical authors the histories of Greece and Rome are taught, both in connection with the recitations and by special lectures.

German

In the department of Modern Languages three courses in German and two in French are offered. The last course in each is changed from year to year which makes it possible for a student to secure an additional year's work in each language.

All students in the Philosophical and Scientific courses are required to take German and French, and either is offered as an elective to students in the classical course.

GERMAN. First term—Harris's German Lessons.

Second term—Easy reading and German Composition.

Third term—Storm's Immense, Hillern's Höher, also Die Kirche and German Composition.

Second Year. Schiller's Wilhelm Tell, Jungfrau von Orleans, Die Journalisten, grammar and composition.

Third Year. Goethe's Herman and Dorethea; Schiller's Mary Stuart, Lessing's Minn von Barnhelm, or Schiller's Wallenstein's Tod. Or selected Lyrics and composition.

French

First term—Elementary French Grammar and easy reading.

Second term—Enault's Le Chien du Capitaine and French composition.

Third term—Alfred de Vigry's La Canne de jonc, or, Dumas' La Tulipe Noire (Fontaine) grammar and composition.

The Second Year's course. Outline of French Literature and composition. Selections from the works of Racine, Hugo, Corneille, Moliere and George Sand.

If desired Spanish may be substituted for French.

English

The importance to the student of acquiring the ability to use his mother tongue clearly, correctly and forcibly can hardly be overestimated. Clear, correct expression and clear correct thought are of necessity very closely related, and the object of all school work is the perfect-

ing of the student's power in these two directions. Here, as well as in all other schools, we have to meet the difficulty arising from loose, careless expression on the part of many students. That this faulty expression may be eradicated, and a real mastery of language gained, long-continued and painstaking care is necessary. To obtain the best results, all teachers work for this end and every recitation is made a recitation in English, for there are so many outside influences of opposite tendency that only by unremitting effort can this work be accomplished.

Our preparatory course in English includes the study of Grammar one year, of English Composition one term, and of Rhetoric one year, before the English classics, now commonly required for admission to College, are read. In these studies the usual work is done. Attention is paid to the study of capitalization and punctuation, correct forms and constructions, the choice of words best fitted to the expression of the idea, sentence and paragraph structure, figures of speech, letter writing and the different kinds of composition. Much practice is given in writing, and mistakes are corrected in both oral and written work. The object of this work is to train the student to a correct and ready use of English, to the acquisition of a good vocabulary, and the cultivation of the ability to enter upon the appreciative study of the masterpieces in our language.

Advanced English

The aim of our course in advanced English is to give the student a comprehensive view of literature and its historical relation to the cultivation and appreciation of literary form and thought. Emphasis is given to the different kinds of literature—Objective and Subjective, and to the Dramatic and Critical study of numerous literary productions, typical of these various divisions.

Character sketches and criticisms are required of all the students that they may acquire ease and readiness of expression.

College Entrance Requirements in English

are now practically uniform throughout the United States. The kind of preparation required has been agreed upon by the Joint Conference of Colleges and Secondary Schools. The following books are for the general reading and composition work during this next year:

1902: Cooper's *The Last of the Mohicans*, Pope's *Iliad*, Books I, VI, XXII and XXIV; Addison's *Sir Roger de Coverley*; Goldsmith's *Vicar of Wakefield*; Lowell's *The Vision of Sir Launfal*; Scott's *Ivanhoe*; Tennyson's *The Princess*; Coleridge's *The Ancient Mariner*; Shakespeare's *Merchant of Venice*; George Elliot's *Silas Marner*. 1903-5. (Required reading the same as above list with the exception of Carlyle's *Essay on Burns* and

Shakespeare's *Julius Caesar* being substituted for Cooper's *The Last of the Mohicans* and Pope's *Iliad*, Books I, VI, XXII, XXIV.)

The student will be required to present evidence of a general knowledge of the subject matter, and to answer simple questions on the lives of the authors. The form of examination will usually be the writing of a paragraph or two on each of the several topics to be chosen by the student from a considerable number—perhaps ten or fifteen—set before him in the examination paper. The treatment of these topics is designed to test the student's power of clear and accurate expression, and will call for only a general knowledge of the substance of the books.

In addition to the above, the following works must be carefully studied: 1902-5—Macaulay's *Essay on Milton*; Macaulay's *Essay on Addison*; Burke's *Speech on Conciliation with the American Colonies*; Shakespeare's *Macbeth*; Milton's *L'Allegro and Il Penseroso*; Milton's *Comus*; Milton's *Lycidas*.

The examination will be upon subject matter, form and structure. In addition the student may be required to answer questions involving the essentials of English Grammar, and on the leading facts in those periods of English literary history to which the prescribed books belong.

NOTE—No candidate will be admitted to college classes whose work is notably defective in English in point of spelling, punctuation, idiom, or division into paragraphs.

Music

Piano - Forte

The ordinary course of study for the piano embraces the rudiments of music and harmony, the practice of scales, chords and arpeggio; Etudes by Duvernoy, Loeschorn, Mason, Heller, Cramer, Moscheles and Clementi; the Sonata form of composition; Selections from Clementi, Haydn, Mozart, Beethoven, Mendelssohn, Schuman, Chopin, Liszt, Rubenstein and distinguished modern composers.

The teacher's course is comprised in the above, with such variation as seems essential.

The amateur course for the piano provides for those who desire to become moderately good performers, but who cannot afford the time necessary for a thorough course. These pupils are assisted to intelligent understanding of all the music submitted to them.

No inflexible course of study can be given, but a selection is followed conscientiously which seems best adapted to the pupil's ability and needs.

Voice Study

Teaches pure tone without force. The ear is taught to recognize true tone and the voice to be governed by that knowledge.

Inequalities of the voice (called registers) made even by proper practice.

Breaks in the voice made smooth by a graduated change in ascending the scale.

Solfeggio and vocalization. Songs are selected from oratorio, opera, and the best of modern composition. English, French and German are urged as advisable for the pupil's progress.

Study of the Violin

The course followed includes Hohmann's five books, Kayser's etudes, tone pictures for violin and piano, easy classics, duets and pieces adapted to pupil's ability. In the higher grades, Kreutzer' and Viotti's studies, De Beriot airs, etc.

The study of the violin is the most efficient preparation to the study of the piano, organ and singing, giving the pupil at an early stage more power of self-help.

To encourage violin study, classes will be organized at \$3 per month, and those studying the piano, or singing, are strongly advised to avail themselves of the advantage to be derived from these classes.

Mandolin and Guitar

With these instruments studies and pieces adapted to pupil's requirements are given, with frequent opportunities for the practice of ensemble playing.

Art

A noteworthy evidence of the influence of higher education is the marked interest in the practice and development of the Fine Arts. Culture is becoming more generally diffused, refined taste in literature and art is no longer a rarity, and such are the requirements of the present that some knowledge of the principles of drawing and painting, which was formerly regarded as an embellishment, is now considered essential to a complete education.

Aside from questions of refinement and taste, proficiency in artistic studies opens up a wide field for remunerative employment. Photography has not yet superseded, if it ever will, the skill of the artist.

To meet the demand for the practice and cultivation of the Fine Arts, the University offers instruction under an artist of recognized ability in the following classes: Oil and Water Colors; Pastel, Crayon and Charcoal; Freehand Drawing; China Painting; Portraiture in Crayon and Pastel.

Students will also be directed to the best works treating of the great works of art, the history and schools of art, and the lives of the painters.

Elocution and Oratory

It is our purpose to teach elocution as an art, resting upon absolute laws of nature, explained and illustrated by exact rules of science, and to give a thorough and systematic training in all the principles upon which the art is based.

Each principle is presented as a vocal culture, then as an element of expression as found in nature. The voice is developed to produce the elements, the ear trained to detect them, and the mind educated to to apply them in the delivery of all styles of composition.

Each member of the graduating class is required to give a programme of readings and recitations before an audience of invited guests. These are occasions of marked interest, the performers always being greeted by refined and cultivated audiences.

Business

To meet the wants of those desiring to fit themselves for business life instruction is offered in Bookkeeping, Science of Accounts, Correspondence, Commercial Law, Legal and Business Forms, Banking, Business Practice, Stenography and Typewriting. Special attention will be given to preparing students to teach these branches in our public schools and academies.

Additional Announcements

Realizing the importance of thorough and systematic preparation for higher studies and extended courses, the Trustees have arranged for concerted and harmonious action among the principal seminaries and academies that are tributary to the University, by the adoption of a uniform course of study leading to the Freshman class in the College of Liberal Arts.

Besides the Academic Department at Athens, the following schools are comprised in the association: Powell's Valley Academy, Well Spring, Tenn.; Wesleyan Academy, Chucky City, Tenn.; Roanoke Academy, Roanoke, Va.; Leicester Academy, Leicester, N. C.; Mt. Zion Academy, Mt. Zion, Ga.; Oakland Academy, Baileytown, Tenn.; Parrotsville Academy, Parrotsville, Tenn.; McLemoresville Academy, McLemoresville, Tenn.; Kingsley Academy, Bloomingdale, Tenn.; Mountain City Academy, Mountain City, Tenn.; Mallalieu Seminary, Kinsey, Ala.; Graham Academy, Smyrna, N. C.; Murphy Collegiate Institute, Sevierville, Tenn.; Fairview College, Trap Hill, N. C.; Demorest Academy, Demorest, Ga.; Edwards Academy, White Pine, Tenn.; Dupont Academy, Dupont, Ga.; Holston Academy, Summertown, Tenn.; Woodland Academy, Woodland, Miss.

In the Academic Department three preparatory courses of study are offered—Classical, Philosophical and Scientific—of four years each, leading to corresponding courses in the College of Liberal Arts. Even if only a limited time is available for attendance at school, it will be found preferable in most cases to take the regular work.

A select course may be pursued by all who desire, provided the work chosen meets the approval of the Faculty, and the hours of recitation do not conflict.

Reports of scholarship and deportment are made out for each student at the close of the term.

A diploma will be conferred by order of the Board of Trustees upon any student completing a prescribed academic course.

On presentation of such diploma, the student may enter the Freshman class without examination.

Elizabeth Ritter Home for Young Women

MRS. F. V. CHAPMAN, Superintendent

Elizabeth Ritter Home is a Hall built for the accommodation of young

ladies attending Grant University, and is located upon its campus. It is attractive and modern in all its appliances. The parlors, library, dining room, study room, sewing room and bed rooms are as beautiful as are to be found in any young ladies' school in the South.

Location

The location is ideal; in the uplands, just at the base of the Tennessee Mountains. From the windows of the Home can be seen the mountains of three states. No more delightful place can be found for students who cannot endure the rigors of a northern climate, but do require the tonic of the mountain air. It is not necessary to enumerate the advantages afforded for literary work at Grant University. Its pupils are its best recommendation. Nowhere in the land is there a more devoted or self-sacrificing body of teachers; nowhere a more earnest and aspiring body of students. This is shown in class work, in enthusiastic literary societies, in Bible classes and in Epworth League work. Grant University is a Christian school under the supervision of the Methodist Episcopal Church.

Under the Auspices of the Methodist Episcopal Church

The Methodism of the South may not be rich in this world's goods, but it has what is better by far, aspirations for growth in every direction. Educated men and women will give the church position and influence for good. Education is necessary for individual success. In these days of applied sciences and complicated and delicate machinery, even the farmer and the artisan must be educated to be most successful in subduing nature to his service.

The Industrial Feature

Girls have the same aspirations, and the same right to the best opportunities, that boys have; but an education costs money, and a large proportion of earnest girls have not much money. It is to meet this difficulty and to give girls a chance equal to that of their brothers as well as to give approved training in domestic industries, that Elizabeth Ritter Home is conducted on the co-operative plan. The members of the household have their daily duties, which are so distributed and directed as not to interfere with the school work. In connection with these duties correct housekeeping and plain cooking are taught. An hour each day is given to plain sewing and dress-making, under the direction of a thoroughly competent teacher, until a certificate of proficiency is secured. Each girl can put her time upon her own wardrobe if she

wishes, so that she can be well dressed at the bare expense of material. The Taylor system of cutting and fitting is taught without extra charge.

The Reasonable Rates

The number in the Home is now so large that a limited number of girls, should their parents so request, can be excused from their share of domestic employments. To such the usual price of twelve dollars per month for board and room, including bedding, heating and light, will be charged. To those taking their share in the domestic duties, averaging an hour per day, a reduction from this price will be allowed of five dollars per month.

This charge does not include tuition in Grant University, which is \$6.00 per term in the Preparatory Department, and \$10.00 in the college classes, half these rates being remitted to ministers' children and those preparing for missionary and deaconness work. Added to this is an incidental fee of \$3 00 per term for all pupils. For information in regard to tuition, and the arrangement of all bills for the same, application must be made to the University authorities.

Uniform Dress

At the request of many patrons of the school and by the unanimous vote of the pupils, a uniform dress has been adopted for street and church. A sample of materials and directions for making will be sent to each pupil applying for them to the superintendent, Mrs. F. V. Chapman.

Should parents prefer, the goods will be furnished at wholesale prices to the pupils after they arrive at the school. The suits can then be made in the sewing room, under the direction of an experienced dress-maker who is at the head of the sewing department, at no expense beyond that for material.

A Christian Home

Parents sending their daughters to Elizabeth Ritter Home are assured that they will be cared for, morally and physically, as they would be in their own homes. Applications are much more numerous than the house will accommodate, so that it will be well to apply early. Methodists will do well to consult their pastors as to the comparative merits of schools. When girls are in the formative period of life, it is very important that all the influences about them be favorable to culture and refinement, and that they receive a strong impulse to useful, unselfish and religious lives. Nowhere in the South are the best influences more potent in the formation of character than in Elizabeth Ritter Home at Grant University, Athens, Tennessee.

Professional Schools

Chattanooga, Tenn.

Calendar, 1902 - 1903

School of Theology

- 1902—October 8, Wednesday, Beginning of Year
November 27, Thursday, Thanksgiving Holiday
December 19, Friday, Beginning of Christmas Recess
1903—January 6, Tuesday, Beginning of Second Term
January 29, Thursday, Day of Prayer for Colleges
February 23, Monday, 8 p. m., Patten Prize in Oratory
May 8, Friday, Anniversary of Theological Society
May 10, Sunday, Baccalaureate and Annual Sermons.
May 11, Monday evening, Alumni Anniversary
May 11, Monday, Annual Examination of Classes.
May 12, Tuesday, Annual Examination of Classes.
May 12, Tuesday evening, Public Commencement Exercises

School of Medicine

- 1902—October 8, Wednesday, Session Opens at 8 a. m.
November 27, Thursday, Thanksgiving Holiday
December 19, Friday, Christmas Vacation Commences at 5 p. m.

Concerning the Professional Schools at Chattanooga, address the following :

SCHOOL OF THEOLOGY.....G. T. Newcomb, D. D., Dean
SCHOOL OF MEDICINE.....E. A. Cobleigh, M. D., Dean
SCHOOL OF LAW.....Charles R. Evans, A. B., Dean

Prizes in Oratory

Mr. John A. Patten, of the Board of Trustees, offers yearly two cash prizes in oratory. Two representatives are chosen by competitive contests from the three professional departments of Law, Medicine and Theology. The public contest is held on the evening preceding Washington's Birthday. At the last contest, the two prizes were won by the Law Department, Mr. Jason W. Baker, of Deadwood, South Dakota, winning the first prize, and Mr. Lawrence L. Lewis, of Vineyard Haven, Massachusetts, winning the second prize. The winners of the prizes receive: First prize, \$15; second prize, \$10.

Systematic Theology
*Practical Theology

REV. BISHOP D. A. GOODSELL, LL. D.,
Special Lecturer

*Dr. Ackerman has charge of this chair.

School of Theology

General Statement

The School of Theology of Grant University is an institution for ministerial training, established on the same basis as other theological schools of the Church.

The advance of general education and culture, the increasing demand for thoroughly educated and earnest ministers, both for home and foreign fields of labor, the widening of Christian thought, the constant improvement in means and methods of Christian activity, are among the imperative reasons for special training on the part of those called of God to the sacred office of the Christian ministry; and the aim of this instruction is to equip young men by a broad and thorough scholarship that they may be able to serve in every good work as the Church may demand. The following extracts from the Discipline give the voice of the Church concerning such schools:

All candidates for our ministry are earnestly advised to attend one or more of the Literary or Theological institutions of our Church before applying to an Annual Conference for admission on trial.—Appendix, p. 400.

Our Theological Schools, whose Professors are nominated or confirmed by the Bishops, exist for the benefit of the whole Church, and it is the duty of the presiding elders and pastors to direct the attention of candidates for our ministry to the advantages afforded in these institutions.—Paragraph 344, section 3, p. 183.

A Bishop may leave without appointment a preacher on trial, or a member of an Annual Conference, desiring to attend any of our Literary or Theological Seminaries, whenever he shall be requested to do so by the Annual Conference, and it shall seem to him expedient; provided, however, that the time thus spent in school shall not count on that required for probation in the Annual Conference.—Paragraph 162, pp. 102 and 103.

The General Conference has decided that the certificates of Theological Schools may be accepted by an Annual Conference "as equivalent to that of its own Committee of Examination."

Admission

Each candidate for admission to the regular Triennial Course producing a degree of A. B., Ph. B. or B. S. from a reputable college, provided the course taken has included Greek, will be admitted without examination, otherwise he must satisfy the Faculty upon examination that he has had classical and literary training sufficient to pursue, without difficulty, the designated studies. Arrangements have been made by the Faculty so that matriculants who are deficient in Greek and Latin may pursue these studies under competent instructors.

Candidates for admission who have no classical training, but have a knowledge of the common English branches, will be admitted to the English Course.

Applicants who are members of the Methodist Episcopal Church, must each bring a certificate of license to preach, or a recommendation from a Quarterly Conference, signed by the pastor and presiding elder.

The form of recommendation authorized by the General Conference of the Methodist Episcopal Church is as follows:

"We, the members of the Quarterly Conference of..... hereby express our judgment that..... is called of God to the work of the ministry, and we recommend him as a suitable person to become a student in the School of Theology of Grant University."

Applicants from other Churches will present the certificate usually given by the denomination to which they belong.

Graduation

The degree of S. T. B. (*Sacræ Theologiæ Baccalaureus*) will be conferred upon students who have received the degree of A. B. or an equivalent degree from an institution of recognized grade, and have completed the prescribed course of study.

Students not graduates of colleges, but whose linguistic attainments and general scholarship have enabled them to be admitted to the regular course, will, after passing a satisfactory examination, receive the diploma of the institution. The usual fee for diploma must be deposited with the Treasurer one month prior to graduation.

Course of Study

Junior Year

INTRODUCTION.—General Survey of Theology; Order and Methods of Study; Biblical Literature, including Biographical Account of Prominent Writers, Ancient and Modern.

EXEGETICAL THEOLOGY.—OLD TESTAMENT.—Hebrew Grammar, with readings from the Pentateuch; Critical Study of the English Bible. Methods of Use, Commentaries, and other Aids.; Geography and Archæology.

NEW TESTAMENT.—New Testament Greek; Critical and Exegetical Studies in the Gospels, Acts, and Epistle to the Galatians; New Testament Canon; Genuineness of the New Testament—its authenticity, inspiration; Study of English New Testament; Scripture Geography; Manners and Customs of New Testament Times.

HISTORICAL THEOLOGY.—The Life of Christ (modern views); History of the Planting and Training of the Christian Church, Post-Apostolic History of the Reformation; General Survey of Ecclesiastical Literature of the Period, including Patristics.

SYSTEMATIC THEOLOGY.—Philosophy vs. Christianity; Scientists vs. Theologians; Miracles, Record Criticism; Anti-Christian Ethics; Anti-Christian Religious Theories; Anthropology; Theology—Revelation—Evidences. (Text Book, "Foundations of the Christian Faith," Rishell. Reference Books, "Man a Revelation of God," Ackerman; "The Supernatural Book," Foster; "Principles of Ethics," Bowne; "Christian Ethics," Smyth.)

PRACTICAL THEOLOGY.—Lectures on the Office and Work of the Christian Ministry and on the History of Preaching, with class examination of selected Sermons from the various periods. Rhetorical Exercises, with daily drill in voice culture and methods of physical exercise. Reading of Hymns and Scripture Selections.

Middle Year

EXEGETICAL THEOLOGY.—OLD TESTAMENT.—Hebrew; Critical and Exegetical Studies in the Pentateuch and the Historical Books; Critical Study of the English Bible; Interpretation; Methods; Figurative Language; Parables; Allegories; Types; Symbols.

NEW TESTAMENT.—Greek Testament; Studies in Romans, Ephesians; New Testament Introduction; Higher and Lower Criticism; Lectures on MSS.; Versions; Textual Analysis and Expository Work.

HISTORICAL THEOLOGY.—History of Christian Doctrine; Ecclesiastical History from the Reformation Period to the Birth of John Wesley; Lectures on the Social Condition of Europe During the Period; Lectures on the Counter-Reformation: on Causes of the Spiritual Declension; Rationalism.

SYSTEMATIC THEOLOGY.—Scientific Basis of Theology; Theism; Antitheistic Theories; The Being of God, Attributes, Trinity; Providence; Anthropology; Probation; Depravity. (Text Book, Miley, Vol.

I. Reference Books, "Theism," Foster; "Theism," Bowne; "Systematic Theology," Raymond.) One original essay each term by every member of the class on a theme assigned by the Professor.

PRACTICAL THEOLOGY.—Lectures during the entire year, covering, The Idea of the Sermon; The Building of the Sermon; Material for Sermons; Illustrations; Modes of Delivery, etc. (Reference Books, Broadus, Buckley, Phelps and Kidder.) Sermon outlines upon texts assigned by the Professor, and brief extemporaneous sermons before the class by every student at least three times during the year. Liturgics: Frequent exercises in going through the regular order of Public Service before the class, by every student, with special reference to manner, tone and effectiveness in reading the Scripture and hymns. Administration of the Sacraments receives special attention.

Senior Year

EXEGETICAL THEOLOGY.—Hebrew; Studies in Poetical and Prophetic Books; Biblical Chaldee; The Old Testament; Introduction, Language, MSS., Versions; Origin and History of Old Testament Canon; the Pentateuch; Authorship, Antiquity, Unity, Modern Objections; Other Historical Books; Poetical Books; Major and Minor Prophets.

NEW TESTAMENT.—Greek; Expository Studies in Hebrew and Pastoral Epistles; Lecture on History of New Testament Exegesis; Canons of Interpretation; Selection of Commentaries and Other Helps; Recent Works on New Testament Exegetical Theology.

HISTORICAL THEOLOGY.—General Church History from the Rise of Methodism to the Present Time; History of Methodism; Recent Movements and Tendencies in Religious Thought; Ecclesiastical Statistics and Review of Religious Progress.

SYSTEMATIC THEOLOGY.—Christology; Soteriology; False Theories of the Atonement; Nature of the Atonement; Objections to Atonement; Benefits of Atonement; Ecclesiology; Eschatology. (Text Book, Miley, Vol. II. Reference Books, "Systematic Theology," Raymond; Campbell and Lidgett, Ritschl, Martensen and others on the Atonement.)

PRACTICAL THEOLOGY.—A thorough study of the Discipline. Lectures on Church Polity, the Pastoral Office and Duties, Relation of the Pastor to Social Questions, Plans and Building of Churches and Parsonages, Revivals, Prayer Meetings, Care of Probationers, Ecclesiastical Law, Charities and Deeds of Church Property, Elocution, Voice and Gesture. The purpose is to cover every possible phase of the Pastor's work and life.

Auxiliary Facilities

Library

The valuable collection of works in various languages, bequeathed by the late Prof. J. Clarke Hagey, D. D., is especially rich in the means of exegetical study. Additions are being made to this valuable library each year.

Lectures

Lectures are given before the School by eminent ministers of our own and other churches. During the past year the Rev. Bishop Daniel A. Goodsell, LL. D., has delivered an interesting and instructive course. In addition to this the students have opportunities of hearing the leading speakers of the nation in the lecture courses of the city.

Expenses

Tuition and rooms are free. An incidental fee of \$10 per year is paid by each student. Those rooming in the building pay an additional fee of \$1 per month for the purpose of caring for the rooms when two occupy the same apartment. Students rooming alone pay extra. The rooms are provided with heavy furniture. Houses for families may be obtained for low rent. Students board at a cost of \$2.25 per week.

Loans may be obtained from the Board of Education, and there are opportunities for supplying churches in or near the city. Students who are industrious and economical usually succeed in "working their way" through the course if they have no other means.

Location

Chattanooga is a favorable location for a School of Theology.

First.—It is central. Parts of seven states may be seen from the top of Lookout Mountain. Ten different lines of railroad terminate in Chattanooga, and the Tennessee River runs through the city.

Second.—It is healthful. According to the report of the Surgeon General of the United States, Chattanooga is the healthiest city of its size in the South, and one of the healthiest in the Nation.

Third.—The M. E. Church is strong here. She has one central Church of some six hundred members, and seven smaller churches in the city and suburbs. These smaller churches, and a number of stations and circuits in the surrounding country, are supplied by students.

The Theological Building is one of the finest in the South, and occupies the most prominent location of all the public buildings in

Chattanooga, commanding an unobstructed view of Lookout Mountain, Mission Ridge, and the National and Confederate Cemeteries.

48

The Alumni Association

The following are the officers for the ensuing year :

President.....	Rev. G. S. Bales, '00
Vice President.....	Rev. W. C. Wheeler, '99
Secretary and Annalist.....	Rev. R. L. Stapleton, '98
Treasurer.....	Rev. I. H. Miller, '90
Orator.....	Rev. Robert Walker, '00

The Association will meet on Monday night of Commencement week.
All alumni are urgently invited to attend this meeting.

Corps of Assistants

J. S. B. WOOLFORD, M. D.,
Demonstrator of Anatomy and Lecturer on Genito-Urinary and Venereal Diseases.

R. H. BROWN,
Assistant Demonstrator and Prosector.

A. H. BERRY,
Assistant Demonstrator and Prosector.

A. B. WOOLNER, PH. G.,
Director of the Chemical Laboratory and Instructor of Toxicology and Urinalysis.

J. E. CLARK, M. D.,
Director of the Laboratory and Lecturer on Microscopy, Histology, Physiology,
Hygiene.

B. H. BROWN,
Assistant Instructor in Bacteriology and Pathology.

G. P. HAYMORE, M. D.,
Assistant to Chair of Anatomy, and Lecturer on Topographical and Surgical
Anatomy.

R. H. TATUM, M. D.,
Associate Professor of Physiology.

B. N. TAYLOR, M. D.,
Assistant to the Chair Materia Medica and Clinical Surgery.

T. S. ZEIGLER, M. D.,
Lecturer on Materia Medica and Therapeutics.

J. W. JOHNSON, M. D.,
Lecturer on Materia Medica and Therapeutics, and Electro-Therapeutics.

H. S. DURAND, M. D.,
Lecturer on Diseases of the Chest and Assistant to the Chair of Practice and
Clinical Medicine.

E. P. GOULD, M. D.,
Lecturer on Dermatology, and Assistant to the Chair of Practice of Medicine and
Clinical Medicine.

W. F. McMANUS, M. D.,
Lecturer on Genito-Urinary Diseases, and Assistant to the Chair of Practice.

J. W. MACQUILLAN, M. D.,
Lecturer on Diseases of the Brain and Nervous System.

J. P. MANKER, M. D.,
Instructor in Bandaging and Surgical Appliances.

A. A. NEFE, M. D.,
Lecturer on Sanitary Science, State Medicine and Public Health.

G. R. ZACHERY, M. D.,
Instructor in Physical Diagnosis.

J. H. EARLY, A. M., LL. B.,
Lecturer on Forensic Medicine and Jurisprudence.

CLARENCE COBLEIGH, M. D.,
Assistant to the Chair of Abdominal Surgery.

U. G. CAULK, LL. B.,
Assistant to Medical Jurisprudence and Toxicology.

CLARENCE LONG, M. D.,
Instructor in Minor Surgery and Assistant to Clinical Surgery.

School of Medicine

Located in Chattanooga, known as the Chattanooga Medical College, and embracing the services of about thirty instructors in the faculty and teaching corps. It occupies its new building, located on the corner of Vine and Baldwin streets. This is a magnificent structure, and splendidly arranged for medical teaching and medical college purposes. It is one of the handsomest of Southern medical colleges, and modern in all its equipment. Its campus extends through an entire block, from McCallie Avenue on the south to Vine street on the north.

The Medical College has reached its fourteenth year in a most prosperous condition, having enjoyed a patronizing support from a vast scope of territory, extending from Nova Scotia and Canada to Texas, including many of the intervening states. Last year its matriculation list bore two hundred and forty-one names, and it sent forth a fine graduating class of forty-one. The outlook is bright for an increasing patronage during the coming season.

The College is fully equipped for training students in all the branches customary in medical educational work, including Practical Anatomy, Laboratory Drill and Clinical Experience. The whole aim of the Faculty is to afford the best attainable inculcation of practical minutiae, and thus thoroughly to indoctrinate its pupils for capable and creditable performance of future duties in professional life.

This College issues a large special catalogue of its own, which can be had upon application, and wherein is fully set forth every requirement for matriculation and graduation, as well as the curriculum in detail, and a full list of the Faculty, students and alumni in this department of the University. Therefore further information is unnecessary here, but it may be obtained promptly, when desired by addressing

E. A. COBLEIGH, M. D., Dean, Chattanooga, Tenn.

DAVID H. BLOOM, A. B.
W. W. RUTLEDGE, ESQ.

General Statement

The Trustees and Faculty take pleasure in announcing that the fourth session of the Department of Law will open Wednesday, October 8. The Faculty consists of representatives of the Bar of Chattanooga, thus enabling the student to come in contact with teachers who are at their best in their professional career, and who are able to impart both a knowledge of the law and the enthusiasm of men who are engaged in the actual daily application of the principles which they teach. The plan of organization proposes:

(1) To bring within the reach of all students the opportunity to acquire a legal education by arranging a course of study that shall embrace all the subjects that are essential to a comprehensive knowledge of the law.

(2) To furnish the student with the means of a full and complete preparation for a professional career by giving him the opportunity to combine the study of the law with the practical workings of the office and the court.

(3) To confer upon the student who shall accomplish the course of study the degree of Bachelor of Laws.

The school has many advantages by reason of its location. Courts are in session almost every week day, so that students may observe the work in all kinds of litigation. The climatic conditions of Chattanooga are favorable to study, the average annual temperature being 60 degrees. The location of the city is high above the sea level, among picturesque mountains, bordering the Tennessee river, affording scenery which is universally admitted to be unsurpassed on the continent. The University building stands on an eminence overlooking the entire landscape, and yet is located in the immediate vicinity of the courts and law offices. In close proximity to the campus are the historic points of Lookout Mountain, Missionary Ridge, Orchard Knob, National Cemetery, while the great Chickamauga Park is only seven miles distant, connected, however, by electric railroad with the city. Chattanooga is the chief railroad center of the South. The moral sentiment of the city is good. The church advantages offered here are excellent.

Additional Statements

The course of study is two years. Students may be admitted, however, upon examination, to the senior year. A Moot Court is held once every two weeks. Lectures are delivered afternoon and night, thus enabling students who have opportunity to attend the sessions of the Federal and State Courts. A daily Quiz class is maintained at four o'clock p. m. The school year is divided into two terms, the first term beginning October 8, 1902, and the second term beginning February 3, 1903. Commencement exercises June 5, 1902. Tuition. \$50.00 per year, payable one-half at the beginning of the first term and one-half at the beginning of the second term. A matriculation fee (\$5.00) is paid but once during the entire course. All expenses are low. Good board and room, including fuel and light, can be had at \$2.50 to \$4.00 per week.

The Law Department issues a catalogue containing complete information concerning the advantages offered by this school. Sent on application.

The school opens its doors to all classes of students, without distinction of sex. The only qualities necessary are sufficient mental attainments and good moral character. No fixed rule is established as to age of applicants, but the Faculty reserves the right to reject any student not old enough to pursue the course with advantage.

Mountain City Business College

Commercial Department of Grant University

This is not a "department" in the sense usually applicable when speaking of commercial work in the literary schools, but a complete and thoroughly equipped Business College, with every facility afforded by any other commercial school. The teachers are all specialists in their work, fitted for it by special training and experience in business, as well as experience in teaching in leading Business Colleges.

The work of this department is divided into two courses: The Business Course and the Shorthand Course. The Business Course includes Double Entry Bookkeeping, Business Correspondence, Commercial Correspondence, Commercial Arithmetic, Practical Grammar, Business Forms, Penmanship, Commercial Law, Banking, Spelling and Office Practice. The Shorthand Course includes Shorthand, Typewriting, Business Correspondence, Grammar, Punctuation, Business Forms, Legal Forms, Spelling, Penmanship, Manifolded, Letter Copying and Office Dictation.

Students entering either course of this department advance as rapidly as their ability and application make it possible, since the work is largely individual.

Special advantages are offered the students in boarding, which, together with furnished rooms, can be had at a price much below that found elsewhere. In being able to limit the expense of living, and at the same time to give all the benefits of a business education which are gained only in a large business center, we claim unsurpassed facilities.

Write for separate illustrated catalogue, which is mailed free upon application, and gives very full information relative to the work of this College. Address
